

Spark Signs & Graphics - Boosting Business

Spark drives sign project for new car dealership.

With already three dealerships to its name, the [Mike Kelly Automotive Group](#) will be opening a Pre-Owned specialty car center in Butler, PA this summer. Spark was involved in the design, production and installation of a unique LED-illuminated channelletter sign and a lighted pylon road sign. Click on the photo for our full blog and other photos of both signs.

And that's not all that kept us busy this month.

First National Bank – Window Graphics

[First National Bank](#) is completely transforming its office at Federal Street on the North Shore of Pittsburgh. Spark was called to print and apply First National Bank logos to windows on two sides of the bank to strengthen brand identity at the refurbished office. This location also includes advanced technology that provides customers even more options when it comes to banking.

Kidzville – Illuminated Channel Letters

[Kidzville](#) will be Pittsburgh's newest hangout for children and caretakers alike this summer. The new facility is made up of 8 customized playhouses, plus a specialty coffee bar for the "older" kids. With its grand opening soon approaching, Spark had its own fun by designing, fabricating, and installing an illuminated outdoor channel letter sign, complete with raceway.

ITPS – Lobby Sign

[ITPS](#) is a provider of IT solutions, services and staffing. Spark was pleased to be offered the opportunity to design and install a new large lobby sign at their Wexford office. The sign is made of quarter inch clear acrylic with blue and white vinyl graphics. Spark also worked around a tricky installation on their beautiful, stepped, stone wall. The outcome: an eye-catching addition to their already cool and spacious lobby.

Omega Federal Credit Union – Banners

[Omega Federal Credit Union](#) is expanding its presence in Pittsburgh by opening a new office in Wexford. We are currently working on ideas for a more permanent sign that will give them a strong and lasting presence in the Wexford Flats. In the meantime, though, we printed and placed two large banners on the property to let consumers know they will be located there.

Perrysville Storage – Flags and Banner

We were contacted by our client to come up with the best solution to help [Perrysville Storage](#) increase brand visibility. Located on a busy, winding road, it was clear that the storage facility needed a spark. We supplied two bright orange flag systems and a banner that provided more visibility for the storage facility's location and brand itself.
