

Spark Signs & Graphics - Boosting Business

Spark Brands UPMC MyHealth@Work Kiosks.

UPMC recently introduced MyHealth @Work Kiosk stations within certain UPMC hospitals and Spark helped find a solution to ensure brand consistency across all of the kiosk locations. We printed 6'x6' acrylic panels and stood them off the wall behind each kiosk. We also supplied wayfinding signage, posters in frames, and literature racks, installing all of them within tight deadlines.

Check out some of our other work from August.

Bossa Nova Robotics - Building Sign

[Bossanova Robotics](#) recently moved into the Leetsdale Industrial Park and had multiple signage needs. We offered several solutions for their main entrance sign and landed on placing a new graphic on the existing panel (shown here). We also provided directional signage within the park, as well as window and door graphics.

PCG Capital - Lobby Sign

[PCG Capital](#) has been busy updating their downtown Pittsburgh office and we were happy to fabricate and install this great lobby sign for them. We used a brushed aluminum face with acrylic backer and larger painted pieces of acrylic to serve as the contrast to the brushed aluminum look and the wood panel walls.

Chemistry - Wall Graphics

[Chemistry](#), a top creative advertising agency with offices in Pittsburgh and Atlanta, came to us with an interesting wall graphic idea. We printed the graphic on high quality 3M vinyl and plotted paint drips and a pool of paint running down the wall to the floor. This is certainly a cool, eye-catching idea!

Workover Solutions - Building Sign

We worked with [Workover Solutions](#), who recently moved into the Chapman Westport business park to fabricate a 5x10 illuminated pan frame sign with push-thru acrylic. We also provided front and back delivery door graphics as well as park directory signage to ensure WOS could easily be found within the complex.

CORE - Office Signage

[The CORE Group](#), a food service sales agency in Pittsburgh, used Spark to install several signs, including the rehabilitation of a post and panel sign, several hanging signs, window privacy film and delivery door directional signage.
