

Spark Signs & Graphics - Boosting Business

Exterior Signage at Oxford Athletic Club

Our work at [Oxford Athletic Club](#) continues with these awesome exterior signs! We fabricated three 6 foot diameter Oxford logo signs that are each backlit and change colors. One was placed above the main entrance and the other two hang from a monument sign we built and installed. In addition, we just completed covering the entire bank of windows to the left of the entrance with dot pattern graphics. Watch for the main floor of the club to open on Monday, November 5th.

Check out some of our other client work.

ESS NextTier - Building Sign

We helped [ESS NextTier Insurance Group](#) add branding to the beautiful new Armstrong High School stadium by putting up framing and signage in two areas. First, we placed a 4' x 20' sign on the exterior of the locker room (shown here) and a larger sign (5' x 36') on the back side of the press box, which every passing car on to the campus will see.

KeyStone Compliance - Monument Sign

[KeyStone Compliance](#), an award winning testing company in New Castle, had a vision for the two lighted signs we fabricated and installed for them. They wanted a tall sign (shown here) that enabled their name to run vertically, complete with push thru lighted acrylic in their orange brand color. The second sign, a lighted cabinet, was placed at the entrance of their campus.

Three Rivers Karting - Lighted Cabinet Sign

Do you feel the need for speed? [Three Rivers Karting](#), opening in November in Leetsdale, will provide excitement and an adrenaline rush to those interested in a true racing experience. We fashioned a 3' x 10' lighted cabinet sign in the shape of their logo and placed it over their entrance to brand the new company. Check them out for individual racing or corporate events.

Sewickley Creek Greenhouse - Exterior Signs

As part of a rebranding for [Sewickley Creek Greenhouse](#), our team designed a new logo, replaced an aging post and panel and updated their main building sign. We also designed a banner system that allows for banners to be switched out by season. Stop by the Greenhouse to visit their Christmas store, and check out our [blog](#) for more details on the project.

YouthPlaces - Various Signage

We had the pleasure recently of working with [YouthPlaces](#), an organization that serves youth in high-risk communities with high quality after-school programs. We replaced their main exterior sign (and included another non-profit, Gwen's Girls, that is located in the same building), window graphic, lobby signs and banners. We also fabricated and installed two acrylic room identification signs.
