

## Spark Signs & Graphics - Boosting Business

### New Monument Signs Debut at Cool Springs.

A lot of planning and persistence went into the design, permitting, fabrication and installation of two unique monument signs that now stand at both entrances to the [Cool Springs](#) complex in Bethel Park.

The 19 foot tall monument shown to the left includes a stone feature that wraps around the side, a routed illuminated header, and twelve large lighted tenant panels. The shorter monument also has twelve panels and is internally illuminated.

We will supply panels as new tenants move into the complex. Check out our [blog](#) and more photos in our [Flickr album](#).

Check out some of our other work from January.

### NexTier Bank - Entrance Sign

We've been supplying new signage and updating others for client [NexTier Bank](#) at the newly-named NexTier Center in Butler. In the photo shown above, we reconstructed an existing sign using the NexTierBank logo as the feature sign as one enters the bank entrance.

### Bounce U - Pylon Sign

[Bounce U](#) contacted us about placing signage on an existing pylon structure at their new location at Jackson's Pointe in Zelenople. We printed vibrant graphics on two panels and placed them strategically atop the structure. Now all who drive in the vicinity can identify Bounce U.

### St. Barnabas - Post & Panel Sign

We are replacing signage on several campuses for [St. Barnabas](#) Health System. This particular sign now highlights the living assistance campus, Arbors III, in Valencia. We printed graphics and applied them to aluminum panels.

### Oxford Athletic Club - Studio ID Sign

Our work continues at [Oxford Athletic Club](#) as we fabricated custom routed ID signs for seven recently renovated studios dedicated to various fitness programs like cycling, boxing, pilates, and more.
