

Spark Signs & Graphics - Boosting Business

Interior and Exterior Signage for The Clubhouse

Spring is here and that means golf season will soon be in full swing. We've been spending a lot of time at [The Clubhouse](#), a new hot spot at Cool Springs in Bethel Park that offers food and beverage for the entire family, as well as VIP golf bays for those serious about their game.

We installed at least ten different types of signs, including window decals, wayfinding signs, membership guidelines, identification signs, restaurant flip menus and more. And we added wall murals on three long walls in the private putting green area. See our [Flickr](#) album for the full compliment of signs.

Bring your family and/or your clubs and stop by the Clubhouse.

Check out some of our other work from April

NexTier Center - Exterior Channel Letters

We completed one of two large aluminum channel letter signs that we're installing at the NexTier Center, [NexTier Bank's](#) hub in Butler. These large 30" tall letters span 22 feet long and light up the night sky to show NexTier's presence in the area.

St. Barnabas - Exterior Sign

Our clients at [St. Barnabas](#) really like the post and panel system we've been installing and this one at the Gibsonia campus Washington Place building is the latest. These sturdy aluminum signs are two-sided and have vibrant graphics covered with a protective overlamine.

Cranberry Orthodontics - Exterior Building Sign

[Cranberry Orthodontics](#) came to us to create new signs for their three locations (Cranberry Twp., Zelienople, Avalon). Shown here is a new pan frame face for their building sign in Cranberry. We also applied graphics to their entrance door, with doctor names and phone number.

Harmony Borough - Wayfinding Signs

Founded in 1804, [Harmony Borough](#) has likely had it its share of signs over the years. The most recent project was to create updated wayfinding signs to help direct visitors to important sites and parking areas. All of the signs were custom routed shapes and some included extensive map graphics.

Event Signage for RAND Corporation

When the [RAND Corporation](#) called to inquire about banners for an upcoming event, we jumped into action and supplied two 16 foot by 16 foot banners that were hung near a stage, and six "X" banners and stands with graphics that showed different Pittsburgh landmarks. Keep us in mind for your event or trade show needs!
