

## Spark Signs & Graphics - Boosting Business

### Signage for New Wahlburgers in Robinson Township

We recently completed signage for the second Wahlburgers in the Pittsburgh area, the location at the Mall at Robinson. This follows the sign package we provided at the region's first Wahlburgers in Ross.

We worked closely with the building architect, owner and construction firm to fabricate and install signs in two important areas - the main outdoor entrance and the interior entrance off the Mall at Robinson food court. Wahlburgers is the only sit-down restaurant in the mall.

On the outside, we placed 30" individual letters and a 72" dimensional circular sign on the building. On the inside, we placed 16" individual letters above the entrance to greet patrons.

Check out some of our other work from July

**UPMC Greenville - Wall Mural**

Our work at [UPMC](#) community hospitals continues as we added signage to the MyHealth@ Work space at UPMC Greenville. Signs included this wall mural, multiple snap frames with posters, a literature rack and a projecting sign at the entrance.

**NexTier Bank - Dimensional Logo**

We have been working at multiple [NexTier Bank](#) locations and this large dimensional logo at the Parker location is one of the signs. This logo, along with newly fabricated panels for the pole sign and an upcoming interior wall logo are part of the overall project.

**Longwood at Oakmont - Wayfinding Sign**

We are producing and installing new interior wayfinding (directional) signs at several [Longwood at Oakmont](#) buildings this summer. We printed images onto thin acrylic and included charcoal tactile and braille with a matte-clear coating to protect the signs.

**SUN-UP Construction - Pole Sign Panels**

Many companies promote themselves via outdoor pylon, pole or monument signs. Wexford-based [SUN-UP Construction](#) came to Spark in need of new panels for its pole sign. We worked with our client to design, fabricate and install the the two panels.

## Vehicle Wraps and Graphics

We design, print and install vehicle graphics of all kinds – from magnets and simple decals to partial or full wraps which can include color changes. Keep Spark Signs & Graphics in mind if you have one vehicle or an entire fleet of cars, vans, trucks, dump trucks, trailers and the like. Shown above are two recent projects: a total color change and applied graphics for [MARCO Contractors](#), and a partial wrap for [ASPEN](#).
